

**Servicesat - Making solutions that FIT your needs - not  
making your needs fit our solutions!**

With more than 20 years of experience, in the field of satellite telecommunications and a wide range of connection packages for telemetry, monitoring and remote control of Wind Parks and Solar Farms, Servicesat is your best stop for your connectivity needs. As well as for monitoring, the satellite connection can be used to help you with on-site security and, indeed, in collaboration with international renowned security companies, Servicesat has already installed complete protection and security solutions.

**Features of satellite connectivity:**

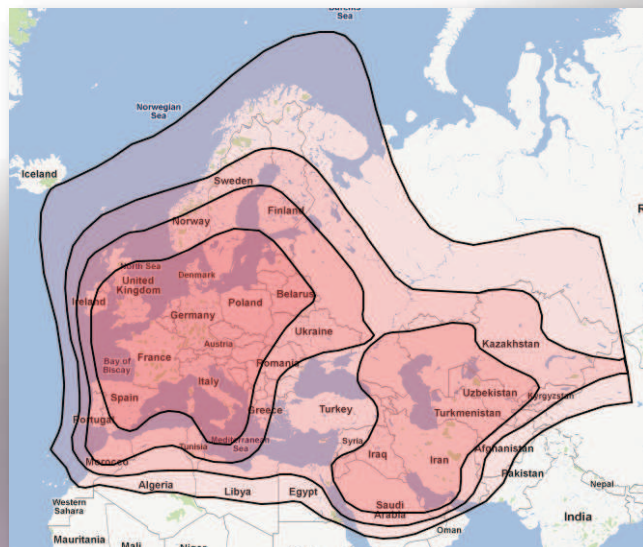

- Satellite connection which provides:
  - Low Cost
  - 100% nationwide coverage
  - Reliability - 99.97% guaranteed network availability
  - Remote service-level upgrades
- 24/7 connection monitoring
- Immediate notification of failures (telephone, SMS)
- Easy, fast & economical installation
- Intruder detection (using security cameras, sensors)
